

Jacob Blaustein Institutes for Desert Research
Mitrani Department of Desert Ecology

Registration for the 14th International Workshop on
The Biology of Desert-dwelling Bats

29 July -9 August 2018

To be held at the Jacob Blaustein Institutes for Desert Research on the Sede Boqer Campus of BGU at Midreshet Ben-Gurion, and will focus on:

- Predator-prey interactions: emphasizing ecological aspects of echolocation
- Physiology: emphasizing flight water and energy balances.

The workshop will include lectures by the course instructors*, and guest lecturers, laboratory exercises in acoustics and physiology, and field and laboratory research projects.

- The workshop is open to undergraduate students of biology who have either recently completed their degrees, or their 3rd year of study, and to M.Sc. and Ph.D. students of biology.
- The number of participants is limited, and acceptance will be based on academic criteria and background courses.
- **Deadline** for registration: 1 May 2018 *Hypsugo savii* Luca Cistrone
- The workshop will be in English.
- For further information about the workshop curriculum, list of past lectures, fees, and to obtain registration forms, please contact Dr. Carmi Korine (ckorine@bgu.ac.il).

Luca Cistrone

Hypsugo savii
