

## 21<sup>st</sup> Meeting of the Advisory Committee

Zandvoort, Netherlands, 18 – 20 April 2016

### Report of the Intersessional Working Group on the Impact of Roads and other Traffic Infrastructure on Bats

The Convenor and other members of the IWG attended a workshop in Denmark in February 2016. The workshop was held as part of the Conference of European Directors of Roads (CEDR) project looking at the effectiveness of mitigation measures for the impacts of roads on bats. The project is due to report in June 2016.

There will be a presentation of a summary of the workshop to the IWG at this meeting. There will also be a presentation on the UK research project on monitoring the effectiveness of mitigation for bats crossing linear transport infrastructure which was completed in 2015.

The findings of both projects will be used in the development of the Eurobats guidance publication.

Jean Matthews

Convenor
