22nd Meeting of the Advisory Committee

Belgrade, Serbia, 27 – 29 March 2017

Report of the Intersessional Working Group on the Impact of Roads and other Traffic Infrastructure on Bats

The report by the Conference of European Directors of Roads (CEDR) project has now been published:

The findings will be presented to the IWG at AC22.

The report was due in June 2016 but was finally published in December. The results are being incorporated into the draft EUROBATS publication but the timetable has been delayed. Further examples of case studies on mitigation and monitoring are kindly requested for inclusion in the publication.
